

Cuba - memo to
self for conf - Sept - Oct. 17

To avoid bad reaction must be ready on many questions:

Retraction NATO's has equally justified criticism in NATO for not action endangering Europe - and, Bites in Cuba could be quickly replaced - the moving to invade & occupy?

Will Latin's think and some (Brazil, Mexico, Chile, Bolivia, Ecuador, Uruguay) may they seek more such protection - US not acting in their interest or with their approval and consent?

Would submission & deal of some arg. Cuba - asking ~~else~~ would be better?

Europeans not interested in removal of their TRB's from Hungary, Czech etc.

What if Cuban missile goes in it too - can we do down as messages behind charging, as with threatened aggression and spying, authoring reaction?

What if there are no war heads in Cuba
